Notes to the Consolidated Financial Statements  
(unaudited)

1) Summary of Significant Accounting Policies

(a) Basis of Presentation

These consolidated financial statements are unaudited and have been prepared from the books and records of Park Place Energy Inc. and its consolidated subsidiaries (“Park Place”, the “Company”, “we”, or “our”). In our opinion, all normal and recurring adjustments necessary for a fair presentation of the financial position of the Company as of March 31, 2016, and the results of operations for the three months ended March 31, 2016 and 2015, and cash flows for the three months ended March 31, 2016 and 2015, have been made in conformity with generally accepted accounting principles. All significant intercompany accounts and transactions have been eliminated. These interim financial statements and notes are condensed as permitted by the instructions to Form 10-Q and should be read in conjunction with the audited consolidated financial statements of the Company included in its Form 10-K for the year ended December 31, 2015.

(b) Loss Per Share

The Company computes loss per share of Company stock in accordance with ASC 260 (“Earnings per Share”), which requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic EPS is computed by dividing the loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes dilutive potential shares if their effect is anti-dilutive. For the three months ended March 31, 2016 and 2015, the Company had 15,268,001 and 14,370,993 potentially dilutive shares outstanding that were excluded for the diluted EPS calculation, respectively.

2.) Going Concern

As shown in the accompanying consolidated financial statements, the Company has no revenues and has incurred continuous losses from operations and had an accumulated deficit of \$14,571,656 at March 31, 2016. These factors raise substantial doubt about the Company’s ability to continue as a going concern. Management is actively pursuing new ventures to increase revenues. In addition, the Company is currently seeking additional sources of capital to fund short term operations. The Company, however, is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, therefore, without sufficient financing it would be unlikely for the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company’s ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

3.) Oil and Gas Properties

	<u>March 31,</u> <u>2016</u>	<u>December 31,</u> <u>2015</u>
Unproven properties		
Bulgaria	\$2,769,557	\$ 2,701,182

The Company holds a 98,205 acre oil and gas exploration claim in the Dobrudja Basin located in northeast Bulgaria. The Company intends to conduct exploration for natural gas and test production activities over a five year period in accordance with or exceeding its minimum work program obligation. The Company intends to commence its work program efforts once it receives all regular regulatory approvals of its work programs.

4.) Note Receivable

In April 2015, the Company loaned \$38,570 to a Bulgarian company pursuant to a revolving credit facility, enabling such Bulgarian company to buy and manage land in Bulgaria to be leased by the Company for future well sites. The credit facility has a maximum loan obligation of BGN 1,000,000 (\$576,900 at March 31, 2016), bears interest at 6.32%, has a five-year term and is secured by the land the Bulgarian company buys. Payment on the facility is due the earlier of the end of the five-year term (April 6, 2020) or demand by the Company. As of March 31, 2016 the outstanding balance on the loan obligation was \$41,063.

5.) Tiway Acquisition

The Company entered into a share purchase agreement on December 22, 2015 to acquire the three subsidiaries of Tiway Oil B.V. ("Tiway"), a company currently in bankruptcy in the Netherlands. These Tiway subsidiaries are oil and gas exploration and production companies operating in the Republic of Turkey. They own interests in 3 producing oil and gas fields, one offshore and two onshore, as well as a number of exploration licenses and operate one of the onshore fields. Current production for the Tiway subsidiaries is about 430 Boe/d (barrels per day equivalent). The purchase price is \$2.1 million USD and the Company paid at signing a \$500,000 deposit toward the purchase price. Prior to submitting the winning bid in the bankruptcy auction, the Company spent the prior 6 months actively gathering and evaluating a large amount of data derived from earlier exploration and production activities on Tiway properties.

The transaction is subject to obtaining the approval of two regulatory agencies in Turkey, the GDPA which regulates the oil and gas licenses and EMRA which regulates gas marketing. The applications plus supplementary materials have been submitted. During the period prior to closing, in consultation with the Tiway staff and partners in the various fields, the Company has prepared work programs for 2016 and into the future.

The transaction was scheduled for closing April 28, 2016, that date has been extended until May 26, 2016 to allow sufficient time to secure the approvals from the respective regulatory agencies. To facilitate closing, the Company has formed a new wholly owned subsidiary, Park Place Energy (Bermuda) Ltd. which will become the acquirer of the shares of the Tiway subsidiaries

6.) Common Stock

In March 2016, the Company received subscriptions for 250,000 shares of common stock at \$0.10 per share for total proceeds of \$25,000 which is included in stock subscriptions received.

7.) Stock Options

The following table summarizes the Company's stock options as of March 31, 2016.

	Number of options	Weighted average exercise price	Weighted average fair value	Aggregate intrinsic value

For the three months ended March 31, 2016 and 2015, restricted stock expense recorded as stock-based compensation was \$18,200 and \$10,375, respectively, and capitalized stock based compensation was \$12,339 and \$85,200, respectively.

At March 31, 2016 unrecognized compensation expense related to RSUs totaled \$81,435 that will be recognized over a weighted average period of approximately eight months.

9.) Segment Information

The Company's operations are in the resource industry in Bulgaria with head offices in the United States and a satellite office in Sofia, Bulgaria. The Company operates as a single reportable segment and its oil and gas properties are located in Bulgaria.

10.) Income Taxes

The Company is subject to United States federal and state income taxes at a rate of 34%. The reconciliation of the provision for income taxes at the United States federal statutory rate compared to the Company's income tax expense as reported is as follows:

	Three Months Ended

### **Executive Summary**

Park Place is an energy company engaged in oil and gas exploration in Bulgaria.

On November 12, 2015, Park Place became the successor registrant to Park Place Energy Corp, a Nevada corporation (“PPEC Nevada”), following a reincorporation merger, approved by the stockholders of PPEC Nevada to provide a better organizational structure for future acquisitions and management of operations. See Park Place’s Annual Report on Form 10-K for the year ended December 31, 2015 for more information on the reincorporation.

The Company holds a 98,205 acre oil and gas exploration claim in the Dobrudja Basin located in northeast Bulgaria. The Company intends to conduct exploration for natural gas and test production activities over a five year period in accordance with or exceeding its minimum work program obligation. The Company intends to commence its work program efforts once it receives all regular regulatory approvals of its work programs.

On August 26, 2014, the Bulgarian environmental agency approved the Company’s overall work program and first year annual work program. A number of parties appealed the decision of the environmental agency and an appeal proceeding was commenced before an administrative judge panel. Since then, there have been several hearings resulting in a number of appellants being dismissed and empaneling a panel of experts to confirm the correctness of the approval by the environmental agency. The next hearing has not yet been scheduled. The Company is participating in that proceeding as an interested party. The Company is continuing its data gathering, evaluation and planning, is acquiring the land for future well sites and is performing an environmental baseline survey of the license area. The initial term of the License Agreement will not begin until (i) the appeal proceeding is completed and the decision upheld and (ii) the Bulgarian energy agency has approved the Company’s work programs.

The Company entered into a share purchase agreement on December 22, 2015 to acquire the three subsidiaries of Tiway Oil B.V. (“Tiway”), a company currently in bankruptcy in the Netherlands. These Tiway subsidiaries are oil and gas exploration and production companies operating in the Republic of Turkey. They own interests in 3 producing oil and gas fields, one offshore and two onshore, as well as a number of exploration licenses and operate one of the onshore fields. Current production for the Tiway subsidiaries is about 430 Boe/d (barrels per day equivalent). The purchase price is \$2.1 million USD and the Company paid at signing a \$500,000 deposit toward the purchase price. Prior to submitting the winning bid in the bankruptcy auction, the Company spent the prior 6 months actively gathering and evaluating a large amount of data derived from earlier exploration and production activities on Tiway properties.

The transaction is subject to obtaining the approval of two regulatory agencies in Turkey, the GDPA (which regulates the oil and gas licenses) and EMRA (which regulates gas marketing). The applications, plus supplementary materials, have been submitted. During the period prior to closing, in consultation with the Tiway staff and partners in the various fields, the Company has prepared work programs for 2016 and into the future.

The transaction was originally scheduled for closing April 28, 2016, that date has been extended until May 26, 2016 to allow sufficient time to secure the approvals from the respective regulatory agencies. To facilitate closing, the Company has formed a new wholly owned subsidiary, Park Place Energy (Bermuda) Ltd. which will become the acquirer of the shares of the Tiway subsidiaries.

### **Results of Operations**

The following summary of our results of operations should be read in conjunction with our unaudited consolidated financial statements for the periods ended March 31, 2016 and 2015, which are included herein.

#### ***Revenue***

We are a pre-revenue stage company, and our future revenues depend upon successful exploration of oil and gas assets.

#### ***Expenses***

Our general and administrative expenses for the three months ended March 31, 2016 were \$177,528 compared to \$216,431 for the three months ended March 31, 2015. The decrease was primarily due to reduced consulting and professional services costs.

#### ***Other Income (Expenses)***

For the three months ended March 31, 2016, other income was \$4,981 due to a foreign exchange gain. For the three months ended March 31, 2015, other expense was a loss of \$49,089 attributable to foreign exchange losses.

#### ***Loss***

Our net loss for the three months ended March 31, 2016 was \$172,547 compared to a loss of \$265,520 for the three months ended March 31, 2015. The decrease in net loss was a result of decreased activities in all areas of operations and the factors described above.

## Liquidity and Capital Resources

The following table summarizes our liquidity position:

	<b>March 31, 2016</b>	<b>December 31,</b>
	<b>(Unaudited)</b>	<b>2015</b>
Cash	\$ 29,196	\$ 75,561
Working deficit	(216,696)	(29,515)
Total assets	3,357,571	3,330,163
Total liabilities	263,647	119,006
Stockholders' equity	3,093,924	3,211,157

### *Cash Used in Operating Activities*

We used net cash of \$58,196 in operating activities for the three months ended March 31, 2016 compared to \$310,758 for the three months ended March 31, 2015. The decrease was due to decreased activities in all areas of operations.

### *Cash Flow from Investing Activities*

Net cash used in investing activities for the three months ended March 31, 2016 was \$12,944 compared to \$97,599 for the three months ended March 31, 2015. This decrease was primarily due to decreased expenditures on the Bulgarian project.

### *Cash Provided by Financing Activities*

We have funded our business to date primarily from sales of our common stock through private placements. During the three months ended March 31, 2016, we received cash of \$25,000 for stock subscriptions. We did not have any common stock sales during the three months ended March 31, 2015.

### *Future Operating Requirements*

Based on our current plan of operations, we estimate that we will require approximately \$3.6 million to pursue our plan of operations over the next 12 months: \$1.6 million to close the acquisition of the Tiway companies, \$1.1 million for planned work programs on assets owned by the Tiway companies post-acquisition and \$900,000 for ongoing operating costs and corporate expenditures.

The Company has no revenues and has incurred continuous losses from operations and had an accumulated deficit of \$14,571,656 at March 31, 2016. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is actively pursuing new ventures to increase revenues. In addition, the Company is currently seeking additional sources of capital to fund short term operations and fund the Tiway acquisition. The Company, however, is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, therefore, without sufficient financing it would be unlikely for the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

### ***Off-Balance Sheet Arrangements***

We have no off-balance sheet arrangements.

### ***Forward-Looking Information***

Certain statements in this Quarterly Report on Form 10-Q constitute “forward-looking statements” within the meaning of applicable U.S. securities legislation. Additionally, forward-looking statements may be made orally or in press releases, conferences, reports, on our website or otherwise, in the future, by us or on our behalf. Such statements are generally identifiable by the terminology used such as “plans,” “expects,” “estimates,” “budgets,” “intends,” “anticipates,” “believes,” “projects,” “indicates,” “targets,” “objective,” “could,” “should,” “may” or other similar words.

By their very nature, forward-looking statements require us to make assumptions that may not materialize or that may not be accurate. Forward-looking statements are subject to known and unknown risks and uncertainties and other factors that may cause actual results, levels of activity and achievements to differ materially from those expressed or implied by such statements, including the factors discussed under Item 1A. Risk Factors in our most recent Annual Report on Form 10-K. Such factors include, but are not limited to, the following: fluctuations in and volatility of the market prices for oil and natural gas products; the ability to produce and transport oil and natural gas; the results of exploration and development drilling and related activities; global economic conditions, particularly in the countries in which we carry on business, especially economic slowdowns; actions by governmental authorities including increases in taxes, legislative and regulatory initiatives related to fracture stimulation activities, changes in environmental and other regulations, and renegotiations of contracts; political uncertainty, including actions by insurgent groups or other conflicts; the negotiation and closing of material contracts; future capital requirements and the availability of financing; estimates and economic assumptions used in connection with our acquisitions; risks associated with drilling, operating and decommissioning wells; actions of third-party co-owners of interests in properties in which we also own an interest; our ability to effectively integrate companies and properties that we acquire; our limited operating history; our history of operating losses; our lack of insurance coverage; and the other factors discussed in other documents that we file with or furnish to the U.S. Securities and Exchange Commission. The impact of any one factor on a particular forward-looking statement is not determinable with certainty as such factors are interdependent upon other factors and our course of action would depend upon our assessment of the future, considering all information then available. In that regard, any statements as to: future oil or natural gas production levels; capital expenditures; the allocation of capital expenditures to exploration and development activities; sources of funding for our capital expenditure programs; drilling of new wells; demand for oil and natural gas products; expenditures and allowances relating to environmental matters; dates by which certain areas will be developed or will come on-stream; expected finding and development costs; future production rates; ultimate recoverability of reserves, including the ability to convert probable and possible reserves to proved reserves; dates by which transactions are expected to close; future cash flows, uses of cash flows, collectability of receivables and availability of trade credit; expected operating costs; changes in any of the foregoing and other statements using forward-looking terminology are forward-looking statements, and there can be no assurance that the expectations conveyed by such forward-looking statements will, in fact, be realized.

Although we believe that the expectations conveyed by the forward-looking statements are reasonable based on information available to us on the date such forward-looking statements were made, no assurances can be given as to future results, levels of activity, achievements or financial condition.

Readers should not place undue reliance on any forward-looking statement and should recognize that the statements are predictions of future results, which may not occur as anticipated. Actual results could differ materially from those anticipated in the forward-looking statements and from historical results, due to the risks and uncertainties described above, as well as others not now anticipated. The foregoing statements are not exclusive and further information concerning us, including factors that potentially could materially affect our financial results, may emerge from time to time. We do not intend to update forward-looking statements to reflect actual results or changes in factors or assumptions affecting such forward-looking statements.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Not applicable because we are a smaller reporting company.

**Item 4. Controls and Procedures****Evaluation of Disclosure of Controls and Procedures**

We carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of March 31, 2016 (the "Evaluation Date"). This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, we concluded that our disclosure controls and procedures were effective.

We believe that our consolidated financial statements contained in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2016 fairly present our financial condition, results of operations and cash flows in all material respects.

**Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II – OTHER INFORMATION****Item 1. Legal Proceedings**

We are not currently involved in any legal proceedings and we are unaware of any pending proceedings, except that the Company is a participant as an interested party in opposition to the appeals that have been filed in Bulgaria against the Bulgarian environmental agency that approved the Company's overall work program and first year annual work program.

**Item 1A. Risk Factors**

Not applicable because we are a smaller reporting company. See risk factors described in Item 1A of the Company's most recent Annual Report on Form 10-K.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mining Safety Disclosures**

Not applicable.

**Item 5. Other Information**

None

## CERTIFICATION

I, Scott C. Larsen, certify that:

1. I have reviewed this report on Form 10-Q for the quarterly period ended March 31, 2016 of Park Place Energy Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of the internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
